For Circuit Judge.—With this issue, we are authorized to announce Charles W. Nesbitt, of this town, as a candidate for the Circuit Judicial nomination in this district.

Charles W. Nesbitt is the second youngest son of the late James Monroe Nesbitt, was born and reared in this town, and has resided here all his life. His father, as is well known, was one of the most prominent attorneys in Eastern Kentucky, his reputation being made while he was still a young man and continuing until his death. Legal eminence is hereditary in the family. James J. Nesbitt, another son, has for several years ranked as one of the leaders at the Owingsville Bar, and also a political leader of distinction, having represented Bath and Rowan counties in the Legislature with marked ability.

Charles W. Nesbitt has served two terms as County Attorney and is at present Commonwealth's Attorney for this Judicial district. He is a young man of popular manners, an excellent mixer, and has a strong personal friendship in every county in the district. He is well known all over the district. He has an influential relationship in Montgomery both by blood and by marriage. He fell heir to a large part of the popularity of his father in the Bath and Rowan counties. He has added to it by his own qualities. The strength of his youth rivals for the nomination is well recognized, but at present he seems to possess advantages of position in the race.

GENERAL NEWS.

Authentic news has come from Dr. Nansen, who was trying to reach the North Pole. He only got four degrees farther north than any other explorer.

"Pay us when you thrash your oats? No, you don't come that on us, Artie Sewall! Will pay us, when you and Bill Bryan whop a fifty-cent dollar free-silver law through Congress and sign it? No, that doesn't go either! You'll pay us New York firms of the John N. Robbins Co. \$352 and \$318 for repairing Arthur Sewall & Co.'s ships W. T. Babcock and Iroquois respectively, and Johnson & Hammond \$5,500 because your Iroquois collided with the E. S. Powell, in good 100-cent dollars under the present gold standard. You won't do it? Then we direct our lawyers to sue you for those sums and attach your goods in this jurisdiction until the courts pass up on the cases. Now you can go ahead with your rat-killing and free-silver making. We'll be on hand when you issue your free silver and will get our share with scorp shore and dump carts."
